Customer Reviews

This book tells how to effectively integrate all google products together that can allow to make money with the proper content. What I took from it is that I can use Adwords to buy keywords that would increase traffic on my website and using Adsense to get some passive income by ppc, which I am not currently utilizing in my personal development/coaching blog. This is a good crash course for beginners and includes visual images to make the set-up process a lot easier.

The book provides essential information that any author needs to know. Clever tips about google

products, keywords research and top rankings are priceless. It is a pleasure reading the detailed instructions and helpful print screens. This is a very important book to have, if you want to succeed in this doggy dog world of eBooks.

This book is for all who wanted to start there online business for the first time. This book is well drafted and author given all needed information and added pictures as well.

Erwee's journey is a facinating one and the opening of this book will really open your eyes to the possibilities your can achieve."Make Money Online For Dummies" Is a very well written and easy to read book It uses lots of imagery and easy explanations to help you set up your blog or site easily.I highly recommend this book to anyone wishing to enhance their SEO.Great book!
