First Class: Legendary Ocean Liner Voyages Around The World

Synopsis

Not so long ago, magnificent ocean liners—unmatched in opulence by today’s vessels—sailed the seas from New York to Rio, Alexandria to Marseilles, and from Southampton to Singapore. In this enchanting book, presented in a slipcase made to resemble a battered steamer trunk, these legendary ships—The Normandie, The Mauretania, and The Majestic —are gloriously resurrected through photographs, posters, watercolors, advertising art, memorabilia, and more. *First Class: Legendary Ocean Liner Voyages Around the World* leads readers on an illustrated tour of these great liners, from glamorous dining rooms and gleaming table services to elaborate staterooms and exquisite salons. Divided into six fantastic journeys, *First Class* is an unparalleled celebration of the elegance, sophistication, and comfort of a bygone era in ocean travel. *First Class: Legendary Ocean Liner Voyages Around the World* engaged me from the get-go, its slender landscape-oriented format, as sleek and elegant as an ocean liner. Gérard Piouffre’s masterful blend of photographs, history, and ocean liner lore effortlessly transported me—an unabashed sentimentalist—right back to the nostalgic heyday of ocean liner travel. Would that it were possible to book passage on each of the voyages mapped out.~ Stephen Lash, Chairman of Christie’s, North and South America and founder of the Ocean Liner Museum “Conjuring a leisurely world of ocean travel unhaunted by icebergs or any other perils of the deep.”~ Stephen Heyman, The Moment/NYT “(Gérard Piouffre) provides a beautiful overview of historic vessels that once journeyed across our oceans.”~ Elodie Noulin-Merat, Metro “It’s a book that makes a terrific holiday gift for anyone who loves boats, cruises, history”~ Alison Wellner, Luxist “Fascinating.”~ The Perceptive Travel Blog “A trawl through *First Class* makes one yearn for an era when getting there, as the slogan had it, was half the fun.”~ The Globe and Mail: Books

Gérard Piouffre is a historian who specializes in industrial-era sailing ships and the French navy. He is a model ship builder and has made several reconstructions from archival material. He regularly publishes articles in nautical journals and magazines and has written several books on maritime history.

A very nice coffee-table to add in my growing collection of travel books. The photographs and illustrations and pictures are all wonderfully presented, and the text is beautifully written. Highly recommend it to anyone who loves cruising in style

Great book for any one who loves to cruise for themself or a friend who loves to cruise. Excellent service.

Possibly interesting small slip case format that requires back paging to read some rather small print captions for identification that can be annoying. Wish more of the ships were identified as well as the period photographs - which are quite nice. Relatively quick read that left me looking for much more given some routes have little in print. All in all a mixed bag.
