Customer Reviews

good condition needed it for college

My daughter said it helped

I got this book because I need it for my English class but the spiral seems to small or tight on the pages and I feel like if I turn a page that it will rip

This is a great and modern source for guidelines for MLA. An invaluable resource for college papers, I'd recommend this to anyone high school level or above. Everything is presented clearly and indexed thoroughly.

I can't really review the book, as once again, I have paid for a book at college that was not used in class. I did access the book, and it works well and is worth the money to rent electronically,

This was a gift to someone ,that has stated that it was helpful in writing an essay soon after receiving it .

Great but hard to keep up with updates have to get one every semester professors want newest edition

Great book! My class begins in January so I will know better how the book works.
