Eragon: The Inheritance Cycle, Book 1

Synopsis

Fifteen-year-old Eragon believes that he is merely a poor farm boy—until his destiny as a Dragon Rider is revealed. Gifted with only an ancient sword, a loyal dragon, and sage advice from an old storyteller, Eragon is soon swept into a dangerous tapestry of magic, glory, and power. Now his choices could save—or destroy—the Empire. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

The book was in reasonable condition, BUT it was not what was advertised. This was not a FIRST Edition book, and I knew it the moment I saw the sticker on the front talking about the free map and preview of the next book included inside. Of course, I then checked the copyrights page cause it could have been the wrong dust cover, and where it should have said "First Edition" like all my other parts to this series it was blank! If you're going to advertise something as "First Edition", make sure you actually have your information correct.

Eragon is a story about a boy that learns he can and will be so much more than what he believes. He is introduced to a world of danger, magic, elves, adventure mages and DRAGONS. This is just the beginning of his adventure and training. Christopher Paolini is a great author, and this series can be read and enjoyed by young adults or adults. I highly recommend this book to anyone that loves fantasy, adventure and dragons.

I absolutely despise reading fiction books! I couldn't think of any worse way to go then reading and actual book about nothing. With that being said I freaking loved this series. It's the first book I've read since AR reading in high school! I got the audiobook and started listening to pass the time on my commute to my new job and loved it. My only complaint now is that the third book isn't on Kindle audiobook yet...

Although it has been fourteen years since Eragon was first published, I just made the time to read it. I fell in love with the characters and their adventures. If you liked reading The Dark is Rising series, The Lord of the Ring series, Harry Potter's adventures or King Arthur and the Round Table, you'll enjoy this series. There's plenty of action, inviting detail, and plot twists to keep you intrigued.

I bought this for my kids school library since they had the rest of the series but not this. This happens to be one of my all time favorite YA series. Amazing writing. I will read the Inheritance Cycle over and over forever.

I have read the whole series 5 times! I recommend it highly. To bad there's no 5th book I would love to have continued the story.

The children in my middle school just eat up this book. We have 4 in the library and all are out.

Enchanting, magic written over every page you will not feel. After a few lines you read, you will be trapped in a very pleasant way. Cover to cover you will delight with the narration of the author, just 15 years old when he wrote this literary beauty.
