Stuttering (Coping)

Synopsis

Many of our teenagers find themselves facing a host of problems they know nothing about. These six new Coping titles will provide teens with information and clarification on some of life's confusing problems. What greater obstacle to a normal social life can teens face than the inability to express themselves or the fear of even trying? This book discusses the latest medical thinking about the causes of stuttering and the value of speech therapy, and it offers insight and psychological support to teens who must struggle with this difficult problem.

Book Information

Series: Coping

Library Binding: 90 pages

Publisher: Rosen Publishing Group (January 1, 2000)

Language: English

ISBN-10: 0823929701

ISBN-13: 978-0823929702

Product Dimensions: 9.3 x 6.2 x 0.5 inches

Shipping Weight: 12.8 ounces

Grade Level: 7 - 12

Customer Reviews

Gr 6-10-Concentrating on the person rather than the disorder, Apel's upbeat and refreshing book offers hope and practical advice for stutterers and concise information for reports. The text begins with a typical scenario a stuttering teenager might face. The author names several famous people, such as Marilyn Monroe, who successfully overcame the affliction and goes to great lengths to correct the common misconception that stuttering is linked to emotional problems. Treatments that can reduce if not alleviate the problem are described. The book gives practical advice on how others can best listen and respond to a person who stutters. The Giddens begin their title with an explanation of loss, grief, and mourning, followed by in-depth discussions of the emotions one might expect to experience at a funeral and throughout different stages of recovery. The reflections of

teens who are going or have gone through the grieving process are interspersed throughout. The "Violence in the Schools" chapter, touching on the Columbine High School tragedy, adds a useful reference dimension to the book. Another chapter, "Coping with Loss," includes self-assessment tools and strategies to further along the healing process.-Pamela S. Bacon, Southmont High School, Crawfordsville, IN Copyright 2000 Cahners Business Information, Inc.
