tl;dr: DK Publishing + Pokemon. Get it! Got this for a 4 year old. Reviewed by a 32 year old Dad/Geek/Fan Presentation 10/10: It is a DK Publishing book. It stands up to that name. Great pictures, great quality, even if some are direct screenshots from the TV show, it still looks great. First pages have maps, and the huge splash pages convey a sense of awesome to the young ones. Durability 10/10: Aside from the slip cover that is not made to last (has there ever been one?) It stands the test of time. Great manufacturing. Worth mentioning:- The book is what we would call over-sized and kid was amazed. Not shown here but the cover shown is a paper slip case, just throw it away because the actual hardcover is a close up to Pikachu face! Looks awesome from the front

and on bookshelf. (Over sized yellow book? Checked!)Verdict: Permanent place in bookshelf!

My 5 and 6 year old daughters love looking through this book.

This was the best investment so far with the pokemon craze in our house. We bought this book for my son at his 6th birthday, he is now 7 1/2 and still uses this guide book. He is obsessed with anything pokemon but this book is a great reference guide for most of the characters. Also, the illustrations are fantastic!

This is a pretty nicely done book. Fun to look through with good visuals and all the information that your average Pokemon-loving child would want to have. I would definitely recommend it. I didn't give it 5 stars only because something has to be truly outstanding for me to do so. But, I have no reservations about this book. Your child will not be disappointed.

Plenty of fun.

this was a gift to my 7 year old grandson...he loved it. He is a pokemon fan and I'm always looking for something new to get him.

Its a great book, and it tells you all you need to know bout the tv show. including the characters and their pokemon

My nephew wants this for Christmas so when he opened his present he was ecstatic. Better than those video games!
