Customer Reviews

X X X , This is for naughty little girls and their daddy's. Very erotic and not for everyone. If You are a submissive female and have a daddy better ask permission to read this book. Thank You

BDSM guidelines include consent and safe practices. This was about force. I only made it to 40% of this stupid book and regret trying to persevere that long. An adult woman in diapers being bottle fed? UGH!There were also a several grammatical errors; not misspellings which would have been picked up by a spellchecker but misuse of words which could only been detected by proofreading.

The story was not as full of errors as some I have seen on KU especially in this genre but should anyone who professes to be a writer have any errors, even if they are self-published? I think if an author is going to expend the energy to write and expect us to spend the time to read their works, they should have enough pride in their stories to do it right. In closing, I have to say that this author's writings are off my reading lists. There is too much good literature to read to waste time on this.
