Customer Reviews

A necessity for band. It includes CDs to help the student learn how the music is supposed to be played.

Recommended by my daughter's clarinet teacher, the CDs make this an easy way to practice and progress while playing alone.

Love this book. The book came fast in a nice packaging. It's shiny and new but has a few edged corners here and there. It came with the CDs and everything too. My band uses this book in class and I would definitely recommend it for beginners and intermediate players.

I purchased this book for my daughter because it was needed for her clarinet class at school. So far the book has been helpful and she enjoys it. price was 50% cheaper than my local music stores and the shipping was extremely fast with Prime as usual. 2 day shipping, and recieved in one day.

Great

This book did not come with a CD as advertised.

Excellent book for beginners. Just recently bought a clarinet and i'm already getting through the basics. Easy to learn and practicing the songs and exercises is simple.

The book was great but I did not receive the CD
