Customer Reviews

I bought this for my grandson because he will be taking high school biology next year. He has struggled in several classes in the past so I want to use any downtime for prepping him for his upcoming classes. I got this from Jarhead Books and received it in plenty of time. It appears to be a valuable book for high school biology preparation. I did buy this used, very cheaply, and there were no badly damaged pages, but there were quite a few stains throughout the book and it had extensive writing and scribbling. Nonetheless, this is a useable collection of exams and answers.

My daughter used this book for her Bio regents review. It helped even more so because her teacher wasn't so much help. She was very anxious about taking the Bio regents. She did very well on the test questions in this text. It lowered her anxiety level when faced with the real exam, and she passed. Again, thanks, because without it, she would have been sunk

We thought about getting this book from the library but my son was dedicated and wanted to track

his work in the book. He has this book in his hands more than his phone. Amazing. He carries this book everywhere.

Great price

Cant beat Barron's when it comes to studying for the various Regents exams

I suck at science and I had the regent exam coming up with almost no knowledge of what I had learned but this book helped me a ton. Those practice tests were very helpful and the explanations helped me as well.

Great book

Excellent book. Great price
