Through Women's Eyes: An American History With Documents

Synopsis

Through Women's Eyes: An American History with Documents was the first text to present a narrative of U.S. women's history within the context of the central developments of the United States and to combine this core narrative with written and visual primary sources in each chapter. The authors' commitment to highlighting the best and most current scholarship, along with their focus on women from a broad range of ethnicities, classes, religions, and regions, has helped students really understand U.S. history.

Book Information

Rented for a history class but considering purchasing new when my class is up. This book is incredibly interesting, heart wrenching and eye opening! I was never interested in history in grade school. As my first introduction to history in ten years, I'm so glad I ended up reading this!

A textbook for my college feminist studies class. Very interesting.

This was the first time I've rented a book for a class off and it was super easy and fully worth it. Also if you're getting this for women's history like I had to it's a super easy read everything is very clear and has got pretty some interesting stuff. I plan on renting from from now on

Textbook... but interesting!

It is the right book at the right price for rent! It was a bit tattered and the only reason it was purchased was for the History class that requested it. It does the trick.

This is a wonderful, comprehensive reference work in which anyone interested in women's history should invest.

thanks

College rental book
