Award winning? I can see how this would be very useful before smartphones and Google maps, but compared to today's technology there is very little content. I preferred to use a small map print out from Google maps and my smartphone rather than this. I do not understand why the price is as high as it is

I have purchased lots of different city maps over the years for places we are visiting. The Street Wise ones are definitely the very best. They are easy to read; uncluttered appearance but filled with the maximum amount of information. Lots of the travel stores and bookstores carry the other brands but not this one so I get them via . They are outstanding.

As NEW New Orleanians, the Street Smart map has helped us tremendously. Sure you can plug directions into a GPS to get around, but you miss so much of the detail that way. These maps are SO much easier to see and read to figure out the grand scheme of this beautiful city. Our first one is carried around in the car, and I've ordered a second just for our visitors! A favorite saying here is "Laissez les bon temps rouler" (Let the good times roll!), but don't roll without your Nola Street Smart map!

Great city map and bonus lamination
