International Organizations: The Politics And Processes Of Global Governance

Synopsis

The third edition of the award-winning *International Organizations* has been thoroughly revised and updated to take into account new developments and shifting power relations since 2009, as well as the most current scholarship. As before, the authors provide a comprehensive, in-depth examination of the full range of international organizations. New features of the book include attention to a broader range of theoretical approaches, to the increasing importance of regional organizations, and to emerging forms of governance. And new case studies highlight the governance dilemmas posed by the Libyan and Syrian civil wars, human trafficking, LGBT rights, climate change, and more.

Customer Reviews

Detailed and comprehensive, this accessible IO text may well set the standard for years to come. The breadth of coverage provides 'one-stop shopping' for the full range of international organizations, along with welcome attention to global issues. (Kent Kille, College of Wooster) This book is a great [introduction] to international organizations. (Kent Kille, College of Wooster) An extraordinary primer for any student of international relations.... This book collates and masterfully illustrates the varied processes that drive contemporary international organizations. (Kent Kille, College of Wooster)

Margaret P. Karns is professor emerita of political science at the University of Dayton and a fellow at

the Center for Governance and Sustainability at the University of Massachusetts-Boston. Karen A. Mingst is professor of political science at the University of Kentucky and Lockwood Chair Professor in the university's Patterson School of Diplomacy and International Commerce. Kendall W. Stiles is professor of political science at Brigham Young University.

Did the job for me - I was working on a project, and everything I needed to reference was in here!

I like this text because it goes in great depth without being overbearing. There are plenty of details, but the author does a great job at explaining international organizations in terms anyone can understand. There are examples that could be updated in a newer version, and some chapters are quite lengthy, but other than that the book is fantastic.

happy with my purchase.

love this book

GREAT !

I had to read this book for a class and I remember most of it was pretty okay, but some of the concepts didn't quite make sense. Some viewpoints were seemed a bit too biased but there were some points that were pretty interesting. I did however get this book in great condition!

Needed for college. Good price and fast shipping.

I needed it for class and it came on time. It was well organized and easy to read. The product was in good condition.
