"If you're a marketing professional, a design student, or simply a lover of paper folding, it's safe to say you'll turn to this book again and again." ~ Ann Martin, All Things Paper Blog

Paul Jackson is the author of over 30 books on paper arts and crafts. He has taught the techniques of folding on more than 150 university-level design courses in the UK, Germany, Belgium, the US, Canada, and Israel and been a 'folding consultant' for companies such as Nike and Siemens.

Great basic reference for several different types of boxes.

Great inspiration for the every day artist and graphic designer. I would definitely recommend this for your art book collection! It has exact paper dimensions in it that are needed to make the folds.
