This book is an easy read and a helpful tool for parenting today's teenager through a Christian perspective. I made my daughter read this book before I would allow her to start dating. It's very useful information that should be shared with every teenager. Our children are subjected to so many social influences that do not value staying pure for their spouse and it's extremely harmful to their future relationships/marriage. This book helps put it all in perspective. It helps a teenager to feel its good to respect themselves and love themselves enough to put God first in their relationships with the opposite sex.

Excellent resource in this day and age where we are all faced with the pressures of every day life. Well written! Biblically factual.

My book came quicker than I expected and I was very happy plus I love and enjoy the book and it help me make important decisions regarding my view towards sex and why its very important to wait until marriage to have sex. Im very appreciate of this book and that you made it available so thanks alot. :)

Excellent book every parent should read along side their teens and encourage these type converstations. Best way to fail is to fail to plan!!

Excellent resource
