Biography Of The Bike: The Ultimate History Of Bike Design

Synopsis

From the velocipede era to today's high-tech bikes, dive into the history of the bicycle. Former Olympic cycling gold medalist and world record holder Chris Boardman is among the most influential bicycle designers in the world. In *Biography of the Bike*, he examines the evolution of the modern bicycle from the invention of pedals to recent innovations in electronic gearing. The complete stories of each development (such as the modern derailleur) that have helped to move bike design forward, and how those inventions became established in the general marketplace, are laid out in all their fascinating detail. Complete with profiles of the riders and designers who have been at the forefront of bicycle design over the decades, the book also examines cultural trends, such as bicycle commuting and mountain biking, that have spurred advances in design. Early efforts at aerodynamic design, the standardization of the "double-diamond" frame, and the introduction of disc wheels, allow you to see the entire history of your favorite two-wheeled transport. Heavily illustrated with photos of bikes, equipment close-ups, and historical action shots of famous cyclists such as Greg Lemond, Jan Ullrich, and Fausto Coppi make this a book that no biking enthusiast, gearhead, or racing fan will want to miss!

Book Information

Hardcover: 288 pages

Publisher: Voyageur Press (June 22, 2015)

Language: English

ISBN-10: 0760349894

ISBN-13: 978-0760349892

Customer Reviews

Chris Boardman is a leading bicycle designer and the Chairman and Design Director of Boardman Bikes, a subsidiary of Halfords. An Olympic gold medalist, he set three world cycling records and multiple British records and has worn the yellow three times in the Tour de France. A tireless

bicycling advocate, he has been awarded an MBE for services to the sport. His nickname, "The Professor," comes from his technical know-how and meticulous attention to detail. Chris has been associated with cutting-edge design since riding his famously radical Lotus bicycle to a gold medal in the 1992 Olympics. Chris Sidwells is a cycling journalist and the author of more than 20 books on the subject, including *My Complete Bike Book* (DK, 2003), which was translated into 24 languages, and the *Bike Repair Manual* (DK, 2004), now in its fifth edition. He is a regular columnist for *Cycle Sport* and *Cycling Weekly*, and also contributes to *Bicycling*, *Men's Fitness*, *GQ*, and other magazines.

a great book for the price - comprehensive and inspiring!

A great tabletop book that is easy to pick-up and read. Interesting and well written.

This is a really enjoyable book to read and then to peruse occasionally. I had been looking for a book which covers the history of the bicycle when I ran across this in the library by accident. I've always thought Boardman was interesting and particularly like his ITV commentating, so I checked it out immediately. I later bought the book for my own collection. *Biography of the Bike* covers the entire history of cycling, from the 1800s to the present and gives good explanations about the technology and what led to various advances. There are a tremendous number of photos, and the book has an emphasis on road racing as opposed to commuting or touring; however, there are quite a few sections on those topics as well. It is a very dense book, packed with photos and text, maybe a little too packed. I have a tough time reading it without reading glasses, due to the small, grey, sans-serif font.
