Complete Dental Bleaching

Synopsis

This book, written by experts on dental bleaching, concentrates on the role of bleaching in restorative, periodontal and aesthetic dentistry, and advises dentists about the role it could play in their practices. The book addresses patient selection, diagnosis, treatment planning, sequencing of treatment and patient expectations. It relates the various bleaching methods, including in-office, home, matrix, nonvital and combination bleaching. Included is a section on the chemistry of bleaching and an index of techniques, materials and products.
