This is a beautiful coloring book. The paper stock is great and all pages are single sided to prevent bleed-through when using markers. I still recommend inserting a blank piece of paper as it still can happen.

I have been looking at this book online for some time now. While the pictures are good, I find the people in the book kinda of creepy. The biggest disappointment for me however is that the picture on the front is not in the book. Also as you can see, the book will not stay open by itself.

My only complaint is that it's hard/nearly impossible to get the book to lay flat, so coloring near the spine is difficult.

I ordered this book because the colouring templates looked enduring and sweet. It is more than that. The book itself is beautiful, it is this malleable hardcover book and looks beautiful. It comes with a lovely well written introduction on how this book hopes to alleviate a little bit of stress from your life. The book hopes that you use colours that make you smile. It is almost like a self-help book. The pictures are so gorgeous that you want to do your best to colour within the lines! This book has already made me happy and I've only coloured a couple pages

Great coloring book!

Too many people, kids and babies ruined a lot of great pictures. Animals waayyy too cartoonish. Skip this one.

This is my first adult coloring book, so I don't really have anything to compare it to. I find most of the images beautiful (there are a few that are "meh" to me... the baby ones [I agree with a former reviewer that they are just a little creepy]... and some where the people are blank/have no features, I find those odd too). The pages are thick and printed only on 1 side, so if you use gel pens to color, you don't have to worry about it bleeding through and ruining the next picture. The MAIN REASON I

subtracted a star :: These coloring books need to be spiral bound!!! It is so frustrating having to place heavy objects to hold the book open. Having the spiral binding would prevent this issue so easily. I love the hard cover, love the paper quality, just pleasepleaseplease fix the binding and I will be a happy coloring camper.

one of my first coloring books so i didnt really know what style I would like. This is a great variety for a starter in coloring. nice bind pictures on both sides .
