Grade 6 Up—This informative book includes an awesome introduction by Kim Gordon of Sonic Youth and is written by Goodmark, aka Sprout, of the female hip-hop group Northern State. It shows the ins, outs, and good and bad things that come with starting a band and making it successful. Even though the title might imply that rock is the focus here, other genres of music are heavily referenced. The conversational tone and quizzes throughout give the presentation the feel of a teen magazine. Readers will learn about everything that needs to be done—from deciding what kind of band they want to planning a first rehearsal, feeling comfortable onstage, and dealing with tough personal situations that inevitably come up. Clever cartoon illustrations appear throughout; they are especially helpful in explaining the difference between the different kinds of

amps and the right kinds of cables and cords to use. Not only does this book provide the technical assistance newbie musicians might need, but it also provides advice on choosing a band name and more emotional topics like how to find creative inspiration. This is a wonderful guide for any girl who wants to start a band but feels it might be way too difficult to even think about. Goodmark makes it all sound like a fun adventure. — Traci Glass, Eugene Public Library, OR Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.
