## Customer Reviews

I never knew in my life, that a simple rice-cooker can come in handy, for a whole lot things can be cooked in that. And if nothing is there I have a rice-cooker to make wonderful recipes mentioned in this book.

The recipes were ok. I loved the Cajun recipes but too many variations of Jambalaya. The breakfast recipes were terrible. A recipe is not quick and easy if I have to use a separate pan to cook items before putting them in the rice cooker. The book was free and about 1/4 of the recipes are excellent.

It's o.k.

A great recipe book for rice cookers!

It arrived on time but the back cover was was ripped within an inch of being totally off. Haven't tried receipes yet!

I'm a big cookbook fan but never really looked too much into rice cooker meals until now. This book is really well put together and covers so many options from dinners, quick and easy recipes, to soups, seafood and meat. What surprised me was that rice cookers can be used for more than just rice and the options are endless. Looking forward to trying some of these out!
