Customer Reviews

I'm absolutely satisfied with the course. Since I'm just finishing the beginner level I can only assess this level and can say that it has met my expectations so far. The course is outlined in a very lucid and comprehensible manner. You can see you are making progress. I do also appreciate the audio CDs that help me learn while on the go. I've gone through two other courses on Greek but this one is by far the best. Wholeheartedly recommend it.

My daughters (10 and 13) seem to be enjoying this language program. I find the book a bit confusing because it doesn't clearly label the three sections of each chapter (part 1, 2, and 3). It is also disjointed in that you listen to a track, do some book work, listen to a track, etc. But, there might be two or three separate tracks per page, so you are constantly switching mediums. It also does not seem to teach much, if any, Greek culture. Learning about a culture is one of the main reasons to learn a language. Finally, I'm disappointed because it doesn't provide good teaching for Greek roots in English, which is one of the other major learning objectives I had to teach my non-Greek kids Greek.

I am very happy with this textbook. It's very easy to follow, especially combined with the 9 cds and the interactive application. The grammar is clear and the examples are also very helpful; I feel that I learn up to date Greek and things that people in Greece actually say nowadays. I LOVE the culture notes!! A great bonus :))

Good product. Correct pronunciation of Modern Greek.

It is a great set - but you truly have to sit down and work at it. There is a workbook included and it is designed to teach you to read/write at the same time as teaching you how to speak. You are 100% going to have to put time in with it, but it will teach you the new language.

I love this product so far. It is very useful and makes it as easy to learn Greek as learning a language with a different alphabet can be.

It is simple to start and they keep building on what you learned in an easy progression. With the app

and books, there are plenty of exercises and assignments.

Money well spent to purchase this program. Far superior than Rosetta Stones and Mango Languages.
