Formula One Circuits From Above: 28 Legendary Tracks In High-Definition Satellite Photography

Synopsis

Now Formula 1 fans can enjoy the sport in an entirely new way: on Google Earth! Thanks to Google's extraordinary mapping technology, everything on the track is sharp and clear—*all* the corners, chicanes, and curves, where the most spectacular action happens. While you'll likely never drive the courses in Melbourne, Monaco, Singapore, or Valencia, with Google's detailed notes on gears and speeds and insights on the races, you can experience the exhilaration vicariously.

Bruce Jones is one of the most respected writers on world motor sport, especially Formula 1. A regular in and around the pits throughout the season, Bruce has covered the World Championship as a journalist and broadcaster for more than 30 years and has written numerous books on the subject, including the bestselling annual *Guide* which is approaching its 20th edition.

Great summary and overview of past and present F1 tracks. Each track has a small section explaining about the history of the track, an overhead shot of the track, a turn by turn guide for the tracks, and a highlight of driver accomplishments at each track. I have been enjoying it and it will make a great addition to my coffee table book collection! For what I paid it was a very good value!

Great aerial imagery and turn by turn information for the F1 fan. Not all of the current tracks are in this book, but they have some cool ones from F1's history.

Bought this for my husband for Christmas and he just loves it!!! He has everything related to Formula One racing and this is something totally unexpected!

Gave this as a gift to one of my best friends! He is an F1 aficionado and loved it! He was able to relate to all of the tracks and said it gave the perfect descriptions. Has amazing pictures and diagrams of the tracks.

Expected it a bit more picture-oriented and/or less technical but quite cool nonetheless!

Very cool, great to see the corners from space, especially for street circuits. Well written and the photos are great.

Excellent seller. Product arrived quickly and was exactly as described. Highly recommend!

Bought as a gift for a true F1 fan and he could not put it down. Awesome boo.
