## Customer Reviews

The recipes, photos, and text are great but the Kindle edition is poorly done. It's very difficult to determine the title of the recipe as you flip through the page. The name of the recipe is listed as the last ingredient on the list of recipe ingredients! At other times the recipe name is listed as the first ingredient of the recipe! The index is poorly formatted - It's very difficult to find anything. It seems like no one proof read the Kindle edition.
