Straight Talk, No Chaser

Synopsis

In the instant #1 New York Times bestseller *Act Like a Lady, Think Like a Man*, Steve Harvey gave millions of women around the globe insight into what men really think about love, intimacy, and commitment. In his new book, he zeros in on what motivates men and provides tips on how women can use that knowledge to get more of what they need out of their relationships. In *Straight Talk, No Chaser: How to Find, Keep and Understand A Man*, Steve Harvey shares information on: How to Get the Truth Out of Your Man, Dating tips Decade-by-Decade, How to Minimize Nagging and Maximize Harmony at Home, And more, including Steve's candid answers to questions you've always wanted to ask men. Always direct, often funny, and incredibly perceptive, media personality, comedian, philanthropist and (finally) happily married husband, Harvey proves once again that he is the king of relationships.

Customer Reviews

“One of our most successful and sought-after relationship gurus, the man women trust to tell them the truth about, well, everything.” (Essence) --This text refers to the Paperback edition.

In the instant number one New York Times bestseller *Act Like a Lady, Think Like a Man*, Steve Harvey gave millions of women around the globe insight into what men really think about love, intimacy, and commitment. In his new book he zeros in on what motivates men and provides tips on how women can use that knowledge to get more of what they need out of their relationships, whether it's more help around the house, more of the right kind of attention in the bedroom, more

money in the joint bank account, or more truth when it comes to the hard questions, such as: Are you committed to building a future together? Does my success intimidate you? Have you cheated on me? In *Straight Talk, No Chaser: How to Find, Keep, and Understand a Man*, Steve Harvey shares information on: How to Get the Truth Out of Your Man Tired of answers that are deceptive? Harvey lays out a three-tier, CIA-style of questioning that will leave your man no choice but to cut to the chase and deliver the truth. *Dating Tips, Decade by Decade* Whether you're in your twenties and just starting to date seriously, in your thirties and feeling the tick of the biological clock, or in your forties and beyond, Steve provides insight into what a man, in each decade of his life, is looking for in a mate. *How to Minimize Nagging and Maximize Harmony at Home* He said he'd cut the lawn on Saturday, and you may have been within reason to think that that meant Saturday before ten in the evening, but exploding at him is only going to ruin the mood for everyone, which means no romance. Steve shows you how to talk to your man in a way that moves him to action and keeps the peace. And there's much more, including Steve's candid answers to questions you've always wanted to ask men. Drawing on a lifetime of experience and the feedback women have shared with him in reaction to *Act Like a Lady, Think Like a Man*, Harvey offers wisdom on a wealth of topics relevant to both sexes today. He also gets more personal, sharing anecdotes from his own family history. Always direct, often funny, and incredibly perceptive, media personality, comedian, philanthropist, and (finally) happily married husband, Steve Harvey proves once again that he is the king of relationships. --This text refers to the Paperback edition.

Steve Harvey's books are very helpful and tell you the truth even if it stings. This book and his others helped me with previous and current relationships. Prior to reading his books I did not understand men at all. After reading them, everything came together. This one, in particular, allowed me to stay on the path that would help me to maintain current relationships and is great to read after his other book(s).

I love this book! It gives women useful fool-proof information to understand men. If women give this book a chance and are ready for the truth, it could change their life. This book is a must read for all women!!! Steve is great and his ability to tell us like it is which should help women understand men's simple and uncomplicated side.

Great book. I am applying the information provided where applicable to me in life and for sure, I am seeing results. For example, dressing good before leaving the house for my classes or church or

grocery store, I have noticed guys looking and smiling at me. The other principle I have applied and it is working is knowing the guys' age and what they are looking for. I attract young guys but they just don't have it together especially under 30 years. Therefore, I have cut off the communications with the all who are attracted to me but they don't have their 3 things met "Know who they are, earn the status of being able to provide and know who they are." Great book

I was skeptical to purchase this book (the same way that I was with the first one) BUT if you are going to make an attempt to understand men, who best to ask than a man, right? As a 40 something single who has never married, I find men just as complex as they make us out to be. Steve's first book gave what I thought was good insight to what men think, how they think and possibly why they think that way. This book does the same. I may not have liked everything that he had to say, but you have to ask yourself this...do you want to hear what you want to hear or do you want an honest answer? There is a reviewer who talks about being sick of hearing about how much he loves Marjorie and how great she is but trust me but in an era where black men and women are at odds seemingly all of the time, it is refreshing to hear a man talk about loving his woman and how much she completes him. If/when I finally marry, I can only hope that I have that very same thing. All in all it's from a man's point of view. This is what I wanted and this is what I got.

I'm a much older women whose daughter had her read this and his other book, "Think Like a Lady, Act Like a Man" and they are both great. I laughed a lot because EVERYTHING he says is true. Girls and women nowadays would do well to read this. He's got it right.

I like the fact that it did not beat around the bush it true that as woman I'm very confused about a men and what he thinks about relationships and how react to certain things I'm glad this book give me some insight to men thinks, very enjoyable read

The title of the book is aptly named as Steve Harvey tells us women the real deal about how men think, react and how to get along with them. Much of it a lot of women will not be happy in reading but they will be the women who will continue to be alone. For those of us who truly want to find our man, be happy and learn the "art of the deal" you will learn invaluable lessons from this book. If you have been mystified about how the male mind works when it comes to committing to one woman, want to know how to win in the game of romance, then this book is for you!

If I were a younger single woman, it would help greatly. But being 78, he guides someone to making a commitment of marriage. I don't want marriage. He gives good advice. I will put it on and hope some young woman would like it.
