My grandson loves this

Super fun and beautifully presented! Love love love this amazing educational addition to our library. Kids are in love too. We strive to expose our children to different cultures and this book inspires us to travel! It's presented in such an appealing manner with gorgeous illustrations and little blurbs that highlight aspects of the city. It adds a little humor that had us chuckling as we read through it. We love to read books before bed and it's a book you would read 1-2 pages a night so you can enjoy looking at the pictures and talking about the different cultural highlights.

thanks

Absolutely loved this book for myself and my child. My little guy is only 19 months old but loves identifying objects that he recognizes on each page. While he's too young to really understand and appreciate the book, he loves the illustrations and I love looking through it with him. It's far more enjoyable and entertaining for me to read than many children's books and it holds his interest well. This book is sure to become a family favorite that we'll enjoy for many years to come!

This is a beautifully illustrated book that presents the most popular attractions in 30 major cities around the globe. This is a great conversation piece for our family! I even learned a thing or two while reading it with my daughter!! This is a great gift for a future world traveler!!!

This oversized book features 30 illustrated city maps from all around the world. The maps highlight interesting places and facts about each city and is a great jumping off point for talking about other places and cultures. A great addition to any library!

Ever wanted to travel the world from the comfort of your living room? Even wanted to introduce a little culture and "world awareness" to you child throughout the convenience of a book? Ever just wanted to enjoy a beautiful oversized map book simply because its gorgeous? Yes? Me too! This map book hits the mark with all those things. The illustrations are gorgeous and filled with details that you can get lost in. Its like taking a mini vacation. This atlas covers 30 large cities from all over the globe and packs in different sites to see as well as other different pieces of culture in each spread on that city. It has completely won us over, I mean, whats not to love?! *I was given this book in exchange for an honest opinion, which this is.
