ISBN-10: 0486237346

ISBN-13: 978-0486237343

Product Dimensions: 8.2 x 0.3 x 10.9 inches

Shipping Weight: 6.4 ounces (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 10 customer reviews

Best Sellers Rank: #521,283 in Books (See Top 100 in Books) #117 in [Books > Children's Books > Education & Reference > Science Studies > Botany](#) #136 in [Books > Children's Books > Education & Reference > Science Studies > Nature > Forests & Trees](#) #6509 in [Books > Children's Books > Activities, Crafts & Games > Activity Books](#)

Age Range: 11 - 18 years

Grade Level: 6 - 12

Customer Reviews

Beautiful illustrations and interesting text. It's better as a memorization book than as a coloring book though, because most of the spaces to color in are so large and simple. Each page has a large line drawing of leaves and twigs, with a smaller drawing of the overall shape of the tree. I would use this with kids or adults to help them learn how to identify trees.

Would have given this a better review, but I just wish the pictures weren't two-sided.

Found a few misspellings (typos) on a couple of pages. But the information and the illustrations are great! I will try some of the other books in this series.

I've used this in my classroom for years. It is the perfect introduction to leaf study. The book includes types of trees, location, seed pod, and colors the leaves turn in the fall. Information is also provided about how to identify the bark. I highly recommend this book for teachers and parents and anyone who's interested in trees and leaves.

Love to learn while doing something fun like coloring...easy to do and worthwhile to study out.

the kids- old and young love to color in it.

Really Really nice if you want to learn to draw trees

old and already colored in it
