Customer Reviews

The vice thing about these books is that they were stand alone books and they all had HEAS. All the men were intent on their desires. They had some laugh out loud moments which made my husband look at me funny. The last book was very poorly edited. I had to mentally edit it as I was reading. All in all the books were dun.

Enough sex to provide a good read but I would have enjoyed a bit more character development through interaction...romantic interludes. Felt story was more about the sex and not the romance and build-up.

From the minute I started reading this series I could not put it down all the twist and turns kept my attention on every word I read for those of you That love a great romance novel this is a must read.

Great book! Loved it!

I have read so many books lately my memory is a little foggy on this one, sorry.

Great book although i didn't like that this entire series was about different couples i wish that would've been clear in separate books rather than one series

Great story

good book
