Summer Bridge Activities™,®, Grades PK - K

Synopsis

Give your soon-to-be kindergartener a head start on their upcoming school year with Summer Bridge Activities: Bridging Grades PreK-K. With daily, 15-minute exercises kids can review colors, shapes, and letters and learn new skills like addition, subtraction, and vowel sounds. This workbook series prevents summer learning loss and paves the way to a successful new school year. And this is no average workbook! Summer Bridge Activities keeps the fun and the sun in summer break! Designed to prevent a summer learning gap and keep kids mentally and physically active, the hands-on exercises can be done anywhere. These standards-based activities help kids set goals, develop character, practice fitness, and explore the outdoors. With 12 weeks of creative learning, Summer Bridge Activities keeps skills sharp all summer long!

Customer Reviews

School stops for the summer, but learning never should! Research shows that many students forget important school skills over the long summer vacation. Prevent summer learning loss with the award-winning, best-selling Summer Bridge Activities®. Get ready for kindergarten! This complete summer learning program provides daily activities for 12 weeks of brain-building practice. Review prekindergarten skills and get a head start on kindergarten topics. All activities support

current state standards: Phonics, Handwriting, Vocabulary, Fine motor skills, Numbers and counting, Shapes, Measurement, Science experiments. Exclusive features for an active, healthy summer! Keep young minds and bodies strong and active all summer long. Exclusive bonus features provide activities that get kids moving, thinking, learning, and doing: Monthly goal setting, Values, Character development, Fitness, Hands-on projects, Outdoor learning.

Too easy for my son who was in pre-school and is going to kindergarten. My son is a regular kid, not gifted or anything like that, but this is just like a coloring book from the dollar store. I loved the one from 1st to 2nd grade but NOT this one.

I absolutely love this book. I am a teacher and my son is entering Kindergarten so I am stressed out trying to make sure he is prepared. The book is well organized, but I skip around bc some of the skills my son has mastered. It is very interactive and fun. My son loves receiving his stickers after he finished a lesson. We also use the book recommendations when we visit our local library. I definitely plan to continue using this product in the future.

So far so good! This for my twins that are starting kindergarten in September. As a former teacher I can tell the authors put some thought into this workbook. Good overall K skills preview/review depending on your child's level.

I love the Summer Bridge workbooks for my kids during the summer. It is great to keep their minds a little bit on school so they are not so behind when the school year starts again. They are nice bite size lessons that can be done within 5 minutes everyday. Sometimes, it is even new material and they learn something they did not know.

We are currently halfway through this book and love it! The activities in it help to review the material that was learned the previous year in preschool while helping to solidify it for next year in Kindergarten. I love the summer reading list and how it serves as an encourager to visit our local library and check each book off our list. The bonus pages in the back of the book are perfect for weekends or to add another week onto the length of the program. This book also includes letter, number, shape and picture flashcards that correspond to a letter of the alphabet. A special certificate for the child at the end of the book is the perfect way to congratulate them for their persistence and dedication for finishing the entire work book. I fully intend to use these books each

summer for both of my children as they grow older.

My son, who is not a big in fine motor skills, has really enjoyed working through this book. He loves getting the stickers and the pages seem to entertain him.

Just the right amount of challenge for my kiddo. I do need to supervise him with it and provide direction. The price of this on is a lot less than what they're bathing for it at his school. I like the format, cards, stickers, chart etc. A lot of bang for the buck!

Great activity book for my 4 year old. It is full of skills that are needed for kindergarten.
