# Contemporary Landscapes In Mixed Media

## Synopsis

Make your landscape paintings more adventurous with these mixed-media techniques! Popular artist and teacher Soraya French encourages her students to broaden their horizons, and here she gives painters the tools they need to experiment with exciting combinations of acrylics, pastels, and collage. The book is divided into the four seasons, and the particular colors, shapes, patterns, and textures associated with each one; it also explores interesting ways of painting flowers and other details of nature. French explains how to create lively compositions, depict architectural features within the landscape, and even, in some instances, create a narrative. Handy tips, simple projects, and step-by-step demonstrations help artists hone their skills.

Fab!

The photo on the cover is just one example of the many beautiful pieces of art that were included in the book. I was amazed to see how many unbelievably gorgeous works of art were included. The

image quality was very good. The artist included detailed descriptions of materials and process for every piece. This outstanding book inspired me and helped me understand how to create colorful, emotionally charged mixed media landscapes.

Don't expect artistic inspirations. Just for hobbyists. If you are new to the art and you don't have drawing skills and talent this book may help you.
