Customer Reviews

Dwayne A. Williams serves as the Director of Didactic Education at the Long Island University physician assistant program and is an adjunct professor for the Weill Cornell physician assistant program. He travels across the nation doing board review seminars and lectures. He is also the author of the Ultimate Medical Mnemonic Comic Book and the PANCE/PANRE Question Book.

I am currently in my didactic year in PA school. This book is my main study material other than the power points given in class. I suggested this book to everyone in my class, and now a majority of us have it. The reason I gave 4 stars is that it is only in black and white and there is a lot of information put onto a page. Other than that, this is a great accessory for PA school.

Concise, and very easy to study from. I wish I would have bought this at the beginning of didactic year!

Great book, just what i was looking for.

Has a pediatric review section. Compared it to the old edition; has the same info and some tweaks! Recommend it.

A must have for starting PA school

Just started using this book last week and I'm in love. I'm now in clinical rotations for PA school and wish I had had this book during the didactic year. Awesome charts and a perfect layout that really highlights the pertinent info.

SUCH an excellent resource. I haven't used it to study for the PANCE yet, but it's been incredibly helpful for studying for exams in PA school. My only regret is not purchasing this a semester and a half sooner.

this is the best book don't even think for second opinion just buy and start reading
