Reads like a novel. Best written text book assigned to me this year. Absolutely loved the flow.

As promised

This is an excellent, insightful, important and incredibly thorough examination of what has been one of the most prominent and misunderstood conflicts of our generation. The authors (historians/experts/professors) clearly know their stuff, and they maintain an objective and balanced perspective where others tend to follow emotions. I find this textbook to be a real resource - whether

you read it cover-to-cover, use it to look up certain details, or just want a valuable overview of the subject through the Preface and Introduction.
