Great

Came in great condition!

great

Awesome condition!

There are gaps between the words which makes its difficult to read fast

This book is so thorough that when I read it I didn't feel like I needed to show up to class because the prof didn't cover half of it but tested on all of it. I'm not condoning skipping class!! I am saying that this might be a book you want as reference after you take this class.

Used this for a intro government class. I often had to refer to the book for in class writings. It did the job.

Book did not look new. Could see slight stains on it.
