Customer Reviews

evo magazine was formed in 1998 and is devoted to the thrill of driving. From hatchbacks to hypercars, evo puts readers across the world behind the wheel with award-winning first-hand reports and exclusive photography of the latest automotive creations.

Bought it for my 7-year old son who has become a supercar fanatic. He loves the book, which cover pretty much all supercars that you want to see from the mid 1960s to 2014, each with a large beautiful picture and a paragraph of information. The only thing to keep in mind is that the book stops at 2014, so don't expect to see 2015 and 2016 models in there. Still a great purchase.

Very nice hardcover book! I purchased as birthday gift for my 11 year old nephew with autism who really loves supercars. He recognized many of the cars in the book. Nice big size. Great photographs and descriptions.

Wonderful photography, lots of great cars. The price is way cheaper than it should be. It even says
USA \$29.99 CAN \$35.00

NICE and good

Bought this gem of a picture book for my nephew. Now he stays up late in bed. He is 7 and it should last a long time. Perfect for kids amazed by cars.

Bought it as a gift for my bro-in-law and he loved it!!! Great pictures and information about the history of the vehicles. I recommend it as a great gift for the car lover in your life.

I'm not big on this sort of book anymore because so much info, pics and videos are available on the www. But the subtitle got me. I assumed evo would tap into their massive talent and experience base and provide us with the sort of insight only time behind the wheel of such cars can enable. They really didn't, choosing to pack the ~one page per car text with basic info most car fans already have both in their memory banks and at their fingertips. (Take a look Inside.)
