Palabra Abierta (World Languages)

Synopsis

Palabra abierta, 2/e, is a theme-driven and process-based Spanish composition text designed to develop advanced students' critical-thinking skills and academic writing proficiency. Through a functional grammar approach students learn about a variety of genres, with a particular focus on the academic essay. Each chapter explores multiple aspects of a common theme through various written genres and teaches students about functional components that constitute each of the genres presented. Each chapter also includes one model essay that demonstrates the genre in which students will be asked to compose. Readings and activities provide students with the appropriate vocabulary, linguistic structures, and writing strategies to allow them to meaningfully engage in chapter topics as well as diversify and expand their writing skills.

This has been the first used book I got from that has had a really bad torn up cover of the book. However the book itself has great and useful material and is for my Spanish class.

Great condition! I was grateful to have a course book for the semester I needed it for & for a fraction of the price!

It looks okay from the outside but a lot of the pages towards the front fell out when I opened it.

The book looks completely new! The price and quality of this product make it a great offer. I would recommend it to any university student looking to save a little extra cash.

Great textbook!

Horrible. Received the book and the pages are literally falling out of it, I hope to return it and get my money back.

This book i bought for the Spanish class is pretty good one. It helped me to learn more and improve my Spanish

It was a good book, and the stories were very interesting, I liked it :)
