Elementary Algebra For College Students (9th Edition)

Synopsis

Understanding Algebra Ã Â Through many successful editions, the Angel team has developed a text that students can read, understand, and enjoy. TheyÃ¢ ¬â„¢ve done this by pairing clear explanations (in short sentences!) with detailed examples and thorough exercise sets. Ã Â This program provides a better teaching and learning experience for you and your students. HereÃ¢ ¬â„¢s how: MyMathLabÃ Â® improves results with a new video lecture series and a new downloadable Student Workbook that can be packaged with the text and/or the MyMathLab code. Carefully crafted exercise sets give students the practice they need to build understanding. Clear, visual presentation gives students content in a readable, easy-to-understand format. Ã Â Note:Ã Â You are purchasing a standalone product; MyMathLab does not come packaged with this content. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. If you would like to purchaseÃ Â bothÃ Â the physical text and MyMathLab, search for: 0321922638 / 9780321922632 Elementary Algebra For College Students Plus NEW MyMathLab with Pearson eText -- Access Card Package Package consists of 0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card 0321654064 / 9780321654069 MyMathLab Inside Star Sticker 0321868064 / 9780321868060 Elementary Algebra For College Students Ã Â

Book Information

Hardcover: 688 pages

Publisher: Pearson; 9 edition (January 3, 2014)

Language: English

ISBN-10: 0321868064

ISBN-13: 978-0321868060

Product Dimensions: 8.5 x 1.1 x 10.9 inches

Customer Reviews

Allen R. Angel received his AAS in Electrical Technology from New York City Community College. He then received his BS in Physics and his MS in Mathematics from SUNY at New Paltz, and he took additional graduate work at Rutgers University. He is Professor Emeritus at Monroe

Community College in Rochester, New York where he served for many years as the chair of the Mathematics Department. He also served as the Assistant Director of the National Science Foundation Summer Institutes at Rutgers University from 1967Ã¢ ¬â •73. He served as the President of the New York State Mathematics Association of Two Year Colleges (NYSMATYC) and the Northeast Vice President of the American Mathematics Association of Two Year Colleges (AMATYC). He is the recipient of many awards including a number of NISOD Excellence in Teaching Awards, NYSMATYC's Outstanding Contributions to Mathematics Education Award, and AMATYC's President Award. Allen enjoy tennis, worldwide travel, and visiting with his children and granddaughter. Ã Â Dennis Runde received his BS and MS in mathematics from the University of WisconsinÃ¢ ¬â œPlatteville and Milwaukee, respectively. He has a PhD in Mathematics Education from the University of South Florida. He has been teachingÃ Â for twenty years at State College of Florida, Manatee, and Sarasota Counties and for ten yearsÃ Â at Saint Stephen's Episcopal School. Besides coaching little league baseball,Ã Â his other interests include history,Ã Â politics, fishing, canoeing, and cooking. He and his wife Kristin stay busy keeping up with their three sonsÃ¢ ¬â •Alex, Nick, and Max. Ã Â

This book has step-by-step instructions that teaches students exactly what they need to know in an easy-to-follow format. I have never had a math textbook that was this well written. You definitely will be able to complete the practice problems without any major problems by following the examples.Note: I wasn't required to purchase the online component, so I can't comment on it. I can't see a reason why you would need it.

The book arrived with front cover split from the spline halfway the length of the book.

Great.

Bought this for a class, as it was required.

My book arrived on time and in excellent condition. I feel this is a GREAT way to get textbooks rather than buying them for hundreds of dollars. Will recommend to all

Just recommending that you order from here-good price. Can't really critique the book-it was the text assigned.

As far as algebra textbooks go, this one is pretty awesome. How's that for a qualifier?

I had more fun beating my balls in with a ballpeen hammer.
