Customer Reviews

Shelly Hagen is the author of numerous Everything wedding books, including The Everything Destination Wedding Book; The Everything Groom Book; the second, third, and fourth editions of The Everything Wedding Organizer; and The Everything Wedding Book, 3rd Edition. She lives in Saratoga Springs, NY.

This is a lot more helpful than most wedding organizers. Some organizers are full of product placement and trendy "must haves" whereas this book helped me navigate the maze of wedding traditions and plan a solid budget. It covers little details as who pays for which expenses, dates and

goals for planning, and how to honor various relatives and guests without offending them. Since my wedding planner ditched me halfway through planning, this book was a great help. It does not include much help with extra parties though such as bachelorette, bridal shower, engagement dinner, or wedding rehearsal. It does not go into menu planning or seating arrangements for the reception, so it is not all inclusive.

I thought this seemed like a great idea to help keep me organized. However, it turned out to be more of a book than a planner. It was for a very formal wedding with an unlimited budget. I wouldn't suggest this as a planner. But if you want to know wedding etiquette, this is for you

So in March, my boyfriend of 4.5 years finally asked the question! How exciting! However, reality started to sink in the first time we went to look for the stereotypical wedding planner. And WOW, was there selection. I was frightened by the selection and cost of a lot of the planners, and many seemed wayyyy too formal for our needs, or used a lot of complicated information. Then I spotted this little book. I have loved the "everything series of books so far and this has been no exception. It has a ton of information, is spiral bound so it's easy to fold over and write in, and was priced just right. It's also small enough that I can fit it into a large purse so I've been able to drag it all over the place without looking like a bridezilla. There is a nice pocket in the back that works well to tuck pamphlets and cards in until I get home to put in my huge organizer, and I love the pages that remind you to make a copy of for whatever vendors. It does all this with a nice air of humor in the text, which is nice when you start feeling so bogged down. The only downside I had was some of the lists (like guest list and seating arrangement worksheets) didn't have enough (as in, guest list for 100 even though we have 200 guests) but we found just scanning it and printing another copy helped, and we just stapled it to the back of the original page. Overall, I am VERY pleased with this book, it's been a great tool and has even given me a lot of good insight on some DIY ideas and made me think about a lot of questions to ask vendors that I would have never thought to ask before.

bought this book for my daughter to help her get organized. she takes it with her everywhere. I would recommend this book

3.5 stars. Helpful, somewhat thorough (although I do believe it could be better), but not in an easy to use format. This is a smaller than normal book (think average hard cover book size) and the worksheets are not arranged in a particularly user friendly or easily read format. Also, there is only

one worksheet per category (e.g. one worksheet to use for one reception site). Therefore, you will likely need to make multiple copies, which can't be reattached to book (i.e. you will have many loose papers), which increases the inconvenience factor & the likelihood of losing a sheet(s). Better than the average wedding book out there.

This book did not meet my expectations. First of all I searched for a binder which was how it was listed, but it's not a binder and it's not a hardback. The cover is a flimsy paperback. Second, it's smaller than a standard sheet of paper which maybe what some brides are looking for, but not me. Third, the lines on the forms are so small there is no way to get the requisite information on them. Fourth, I wanted a form that would help me choose between vendors and compare/contrast offerings, there are not enough forms and the layouts are not conducive to that. Overall, very disappointing.

Great product that will keep you organized...bought it for my sister to help with her wedding and she loves it!

I really enjoyed reading this book. I have read about ten wedding planners and this one is by far the most upbeat and non-aggressive. Several other books were very opinionated and at times, sarcastic about the 'right' way to do things. This author makes suggestions and offers ideas. There are a bunch of checklists and worksheets - which are very helpful. In fact, I flagged so many pages it looked like my book had wings. Whether you are planning a formal or casual wedding this book is a great 'guide' not a rigid 'rule book'.
