## Synopsis

DIY For Men: Woodworking, Ham Radio, Blacksmithing, Homemade Weapons and Even DIY Internet Connection

Part 1: Woodworking Projects

Book 1: DIY Projects: 30 Modern Wood Pallet Projects To Decorate Your Home And Garden

Pallets. Those large wooden things we see in all sorts of places, but never really give any thought. Sure, you see them when you are at a garden nursery, or perhaps shopping at a warehouse center. Perhaps you have seen them on the backs of trucks or in the industrial world, but have you ever seen them look attractive? Whether you are looking for a large project that will completely transform a pallet right before your eyes, or minor projects that are going to show you fun and cool ways to use pallets around the home, this book is for you. I am going to show you the magic behind the pallet, and give you exactly what you need to know to use pallets around your home and garden like you never thought you could.

Book 2: DIY Mini Shed: Illustrated Tutorial On Building Small But Roomy Shed In Only \$40!

It is possible to make your own shed for as little as \$40. It will involve you completing all the work and sourcing the materials. Part of this will be discovering how to locate materials either cheap or for free; this can make a significant difference to the cost of your build. The shed illustrated in this guide is a fairly standard two meters by one meter and is made from pallets. These dimensions are controlled by the size of the pallets you find. It is possible to make this shed much bigger or even a little smaller; simply follow the guidelines and either add or remove pallets as required.

Book 3: Fence Building: 10 Nice Looking DIY Fence Building Projects That Won't Make You Broke

There are so many reasons why you should have a good fence, it's hard to count them all. When you have the right fence, you are able to keep your loved ones safe and secure, and know where they are at all times. That's where this book comes in. In it, you are going to find everything you need to make a variety of fences for your outdoor living space. You don't have to spend a lot of money, and you can rest easy knowing that your pets and children are safe and secure in your yard.
