Customer Reviews

I've made a couple of recipes so far and I've never had success with Chinese cooking...until now. They were delicious, easy and were restaurant quality. I shared a picture of one meal on FB and encouraged friends to pick up this book. I was very impressed and would highly recommend it.

I really enjoyed this cookbook! It has all of my favorite Chinese recipes and they are delicious!

Extremely easy to follow the directions and make. Thank you so much for this book!

If you love Chinese food, I am sure you will fall in love with this book. Most of the dishes are nicely formatted, starting with the title at the top of the page, followed by an idea then the active ingredients and instructions. I tried one of the recipes, the Chinese Pepper steak and i went just fine. It was delicious and suit with our taste. I'm looking forward to trying some recipes.

I don't know but Chinese food are just to good for family gatherings and way too expensive too. So I'm bent on doing this for better family dinner experience. Not Chinese but I definitely love Chinese Food. What I like about it is that the recipes are easy to do, no need for complicated tools, bust basic stuff which makes them even more do-able. The soup recipes are first on my list.

This is a really wonderful cookbook and I definitely recommend it to anyone who enjoys Chinese Cuisine. :) It has a great layout and it's easy to find the recipes you're looking for!

I'm a legit fan of Chinese food, but I'm really tired going to different places just to buy these foods. The good thing is that, I got this cookbook and I already know how to cook Chinese recipes a lot easier.

I like it - straightforward and to the point; a decent recipe book. I don't have any serious complaints about this. A very handy guide.
