Mess: The Manual Of Accidents And Mistakes

Synopsis

From the internationally bestselling creator of *Wreck This Journal*, a book that celebrates mistake- and mess-making like never before...Your whole life, you've been taught to avoid making a mess: try to keep everything under control, color inside the lines, make it perfect, and at all costs, avoid contact with things that stain. This book asks you to do the opposite of what you have been taught. Think of it as your own personal rumpus room. A place to let loose, to trash, to spew, to do the things you are not allowed to do in the "real world." There are only three rules you will find in this book: 1. Do not try to make something beautiful. 2. Do not think too much. (There is no "wrong.") 3. Continue under all circumstances. It's time to make a mess.

Customer Reviews

Praise for *Mess* "Mess is incredible and offers a fun and safe form of stress relief through destruction. It's damn liberating." • Wanders in Whim "Keri Smith's books encourage freehand art exploration and teach artists that accidents and experimentation can yield amazing and unexpected results." • The Carle Museum "Two things I love about Keri and her approach: 1) Keri is permission: to break away from my usual linear self and send it on vacation. 2) Keri is encouragement: to create what she calls a 'habit of experimentation,' which can be so beneficial in living a full, creative life (and in learning new ways to tell our stories with words and photos)." • Ali Edwards, author of *Life Artist* "Once you get going, the book really becomes a source of liberation; it frees you to

make a mess, stop thinking about the outcome and just enjoy the process. Let go. See what happens. And enjoy your complete disregard for the outcome. A great family activity. • Family First Praise for Keri Smith • “Keri Smith may well be the self-help guru this DIY generation deserves. • The • Believer • “A conceptual artist and author luring kids into questioning the world and appreciating every smell, texture and mystery in it. • TIME • Magazine

Keri Smith is a bestselling author, illustrator, and thinker. Her books include Wreck This Journal, The Wander Society, This is Not a Book, How to Be an Explorer of the World, Mess, Finish This Book, The Pocket Scavenger, Wreck This Journal Everywhere, Everything Is Connected, and The Imaginary World of... as well as Wreck This App, This is Not an App, and the Pocket Scavenger app. She enjoys spending time with her husband, experimental musician Jefferson Pitcher, and two children.

I purchased this for my sister as a birthday gift. I love the fact that each page explores your creative juices differently. Each "activity" can build so much content that you probably would have never thought of. I purchased the "Mess" book because she is a flight attendant and travels a lot. Majority of the page prompts have you put something on the page, for example, if she were at the beach one of the pages would tell you to put water droppings on it, or smear something. Another fun way to remember your memories. I want one of these books for myself now.

This was for my grand daughter and she loves it. Book is just what she expected. Thank you. Mabel Rinard

Great birthday gift for your kids. So much fun for them and better than them playing video games

If you need to get out of the routine once in a while, just relax and take a moment for yourself, this book is just what you are looking for.

just got it today, and i already know how much fun awaits me.

great book was a gift

These books are more for teenagers, not grown adults. My 12 year old loved it, my 17 year old was like, Really Dad!!!

excellent
