Customer Reviews

If you're a beginner or newcomer to the Phoenix mountain biking scene, or if you're tired of the same old trails, here's a guide to the 35 finest rides in the desert and in the nearby mountains. This compact and portable book contains rides in the adjacent Tonto National Forest as well as in the city and county parks. Beginners and experts will find something fun to ride. Check out smooth, fast singletrack, wind through tall pine trees, cruise next to mountain streams, ride historic roads, and test your skills on technical terrain. Phoenix has it all! This handy pocket-sized guide will help you choose a ride that's appropriate for your fitness level and will be an indispensable companion to all your fat-tire fun.

This publication is an earnest effort to provide a guide to Phoenix-area mountain biking trails. However, it contains inaccurate information and is woefully outdated. Many of the trails have either been encroached upon by new housing development or are presently closed to the public altogether (ie. Devils Hole in the Tonto National Forest). Descriptions of certain trails and the level of difficulty is also cavalier. It is irresponsible of Bruce Grubbs to author a publication on a sport as hazardous as mountain biking when he is clearly not an expert. There are some very good mtb trail guides for Phoenix out there; I'd recommend giving this one a miss.
