Joseph Phillips, PMP, CompTIA Project+, a leading project management consultant and educator, has been a CompTIA Certified Technical trainer for over 10 years. He has taught train-the-trainer courses for New Horizons Computer Learning Center, Eli Lilly Pharmaceuticals, and Knowledge Development Centers, and has also taught at the Project Management Institute, the University of Chicago, Ball State University, and others. Phillips is the Director of Education for Project Seminars, Inc., a project management training company based in Indianapolis. He is the bestselling author of PMP Project Management Professional Study Guide, Third Edition, CAPM/PMP Project Management All-in-One Exam Guide and several other books.

This book was a life saver for taking the PMP, just took the PMP and passed all sections with Proficient rating. I could not get through the PMP official PMBOK, but was able to read this. It is very well written, with normal person language. It gives you hints for exams and for real life. The questions in the self-tests and the master exam are very similar to the PMP exam.

Huge fan of the layout of this book as it is aligned with the PMBOK. The videos are helpful and breakup the reading. Haven't taken the exam yet but I'm confident given how well I am absorbing the material and knocking out practice tests.

I really like this book, a great compliment to PMP courses. The questions at the end of each chapter are good for learning the concepts and the practice exam is good for preparing you for the level of difficulty of the PMI exam and the way the questions are written.

This is the best book to use to prepare for the PMP exam. The sample tests and many quizzes are very good. The author explains why each answer is correct or incorrect. The style of writing is engaging.

Passed the PMP exam the first time using only this book. Thank you!

meet my expectation.

Very good book

Very nice book. Not exactly broken down in the way it is described, but overall good material and good value for the price.
