More sophisticated book of colors. Some of the colors are not vibrant, the red is dull. This teaches my child that each color comes in different shades. It's still 5 star worthy to us. Also like that it's not associate with any cartoon. We have three Little Owls books, love the common theme/colors.

I like it and think it's adorable but my daughter isn't interested in it right now, even though she said she wanted the Easter bunny to bring it to her. She saw it on the back of one of the other little owl

books she has, I keep trying and I know she will come around eventually.

Great quality books and I bought this with "little owls day" and "little owls 1-2-3" my daughter and I love the entire series. I highly recommend this and the other books in this series

My 1 year old loves little owls books. Every time I pick her up from day care she comes over with this book for me to read before we leave. I finally order them so we can have them at home. When I ask, her what book will you like me to read it never fails gets All of her 3 little owls books! So easy to follow and just right for baby. I my self love it the drawing are so beautiful!. I will recommend this book.

Pages aren't as bright/colorful as I would have imagined but still a nice board book for the price.

Love the Little Owl's books! We have several and they are enjoyed over and over. A teaching and entertaining book.

Super cool for my 2 year old nephew who loves owls!

Cute little cardboard book for my 1 year old grandson.
